

I have been listening to the radio station K-LOVE for 4 years. I listen to KLOVE on FM 105.5 & 89.1 as part of a national broadcast program (Phoenix AZ). This station provides me a service in which there is no other place I can go on radio and receive. The message and the music of the station is supportive and encouraging. It is family friendly- my entire family enjoys - the lack of advertising is refreshing...where can a person go without having some type of marketing/advertising shoved at them??? Go to KLOVE. The message of the station is awesome!

If KLOVE were to be displaced by other programming a huge void would be left for myself and many of my friends. I will say this again - there are not any substitutes for KLOVE. Not a week goes by that my neighbors/friend that KLOVE is not brought up in a discussion.

KLOVE must be allowed to be heard on FM radio. It is in the public's interest to have this available. The message heard from this station is in line to what my values and beliefs are...there are people in the public that struggle with different addictions that are helped by the positive message of this station... Marketing /advertising has taken over much of the world... there are not many places public can go without having to listen to "a message" that someone wants me to hear. I can go to KLOVE, I choose to hear that message, enjoy my time....I can't imagine my life without having KLOVE on FM to listen to. The station is able to sustain on support from its listeners with advertising. It is very valued. If you have never listened- Give it a try.

I do not leave home on a vacation before I get the list of where I can turn to on the FM dial so I can hear MY KLOVE station. It is a vital part of my daily life. Please don't allow KLOVE to go away. I am available for further questions - ljpglov@hotmail.com
